

LPG COUPLINGS

Driplex Engitech is part of a group which has a proud 60 year legacy in the field of engineering within the fluid transfer industry. We have the expertise and commitment to manufacture the perfectly engineered Drybreak Couplings, BreakAway Couplings & Aviation Couplings.

Driplex LPG Couplings, engineered for secure LPG (Propane/Butane) transfer in liquid and vapor forms, feature ultra-low release upon disconnection, enhancing safety and surpassing stringent environmental standards with over 99% emission reduction compared to traditional connections. These couplings boost both human and plant safety and are interchangeable with other LPG coupling brands.

Driplex Dry Disconnect Coupling – Gas (DDC – Gas)

Size Range	:	1 inch to 6 inch
Material of Couplings	:	Stainless Steel
Seals	:	Low Temperature FKM
End Connections	:	Threaded or Flanged
Working Pressure	:	25 bar

Interchangeable with TODO Gas® and MannTek Dry Gas Couplings®

TODO Gas® is a registered trademark of Emco Wheaton.
Dry Gas Couplings® is a registered trademark of MannTek AB.

- Built for LPG
- Single Operation Couplings
- Automatic NRV's Opens & Closes at both ends
- Ergonomic Design
- Built in Swivel

Interchangeable with other Makes •

Ready Stock •

Quick & Easy to Operate •

Low Maintenance •
